

KD-PHF

Floataion Workstation

Features

- ▶ Touch operating system: touch-type high-definition LED digital display, equipped with heating status indicator light.
- ▶ Smart split combination: the water bath, floataion workstation , and slide dryer machines are independent and can be combined, and can be combined online to save power ports.
- ▶ Intelligent PID temperature control: equipped with double high-precision temperature sensors.
- ▶ Multiple temperature control protection: multiple temperature measurement, uniform and constant temperature control, intelligent temp control.
- ▶ Built-in temperature sensor: The water bath dish is equipped with an independent high-precision thermometer, which can directly detect the water temperature and accurately control the temperature.
- ▶ Universal angle lighting: LED lighting with adjustable brightness and shifting angle.
- ▶ Separation of water bath areas : Equipped with a water bath separator to freely separate the water bath surface, one pot can be used for two purposes, and can absorb debris from the water surface to keep the water surface clean.
- ▶ Separate water bath and drying table are interchangeable for easy replacement.
- ▶ Multi-functional drying table with temperature control, drainage, and drying platform—drains first, then dries to prevent slice slipping and blistering.
- ▶ Sealing wax on the drying table: Equipped with a sealing wax tank, the tissue wax block is sealed and protected when the sectioning is completed, reducing the number of processes.
- ▶ Timing drying: can set the timer to control the drying time.
- ▶ Flow circulation hot air slide drying: The exquisitely sealed drying cabin can accommodate a variety of slide staining racks, and tissue sections can be quickly dried and attached to the slides.

Technical Specifications

KD-P Water bath

- ▶ Dish: 247x182x55 mm
- ▶ Capacity of dish: 2.3L
- ▶ Light: 0 to 5 levels lighting.
- ▶ Dimension: 330x375x130 mm
- ▶ Net weight: 5kg

KD-H Slide warmer

- ▶ Station: 256x188x52mm
- ▶ Capacity of station: 100slides (10x10)
- ▶ Wax sealing stand: 74x46x5mm
- ▶ Temp setting: 0~99°C
- ▶ Drying table slope angle: 60°
- ▶ Dimension: 330x375x130mm
- ▶ Net weight: 6kg

KD-F Oven

- ▶ Drying cabin: 212x190x130 mm
- ▶ Capacity: about 300 pieces
- ▶ Drying temp: 2 levels (70°C/75°C)
- ▶ Time setting: 30/45/60 min
- ▶ Dimension: 230x375x165 mm
- ▶ Net weight: 3kg

Power: AC 100V~120V/AC 220V~240V

50Hz/60Hz

350W
